1. Qualitative Information on Consolidated Financial Results for the Quarter Ended September 30, 2014

(1) Explanation about Business Results

During the six months ended September 30, 2014, the Japanese economy experienced downturn triggered by consumption tax rise in April, but is showing gradual recovery as employment and income environment has continued to improve and various government policies have taken effects. However, attention should be given to risks that might depress the Japanese economy including those related to prolonged backlash from last-minute demand before consumption tax rise, unfavorable effect of weakening yen, and downturn in overseas economies.

In the aviation industry, demands of international passengers during the summer busy season exceeded the previous year's results due to an increase of the arrival and departure slots for international flights at Tokyo International Airport as well as a continued upward trend in foreign passengers visiting Japan. Domestic flights, however, fell below the previous year's results as there were more cancelled flights due to large typhoons this year.

Under such economic conditions, the Group (the Company and its consolidated subsidiaries) recorded net sales of \$10,605 million (up 0.7% from the same period of the previous year) with contributions from full-scale operation of new property including an in-flight meal factory completed at the end of the fiscal year ended March 31, 2014, operating income of \$1,778 million (down 6.0%) and ordinary income of \$1,982 million (up 6.9%) and net income of \$1,065 million (up 0.1%).

Performance by business segment is as follows:

(i) Real Estate Business

Real Estate Business recorded net sales of ¥7,804 million, an increase by ¥416 million (5.6%) from the same period of the previous year, as a result of full-scale operation of an in-flight meal factory and maintenance center at the Tokyo International Airport completed at the end of the fiscal year ended March 31, 2014 and new rent income from Omori Higashi apartment for major airline companies. Operating income, however, decreased by ¥22 million (1.6%) to ¥1,332 million due to an increase in depreciation and electricity cost.

(ii) Area Heating & Cooling Business

Area Heating & Cooling Business recorded net sales of ¥1,649 million, a decrease by ¥305 million (15.6 %) from the same period of the previous year as our service in the 1-chome District of Tokyo International Airport was terminated at the end of May 2014 due to a decrease in customers and facility deterioration and shifted to a heating & cooling system for individual building in Real Estate Business while the business provided by Tokyo Airport Heating & Cooling Co., Ltd., a consolidated subsidiary, at the 3-chome District of Tokyo International Airport has shown favorable growth. Operating income also decreased by ¥41 million (12.2 %) to ¥299 million.

(iii) Water Supply & Drainage Service and Other Business

Net sales in Water Supply & Drainage Service and Other Business decreased by ¥34 million (2.9 %) from the same period of the previous year to ¥1,151 million as a result of reviewing management fees for the waterworks & drainage management business at the Tokyo International Airport. Operating income also decreased by ¥51 million (25.7 %) to ¥148 million.

(2) Qualitative Information on Consolidated Financial Position

(Assets)

Total assets as of September 30, 2014 amounted to ¥81,712 million, an increase by ¥4,091 million compared to March 31, 2014, due to an increase in prepaid expense for the payment of land rent for the year ending March 31, 2015 and in unrealized gain in investment securities as a result of rise in stock price.

(Liabilities)

Liabilities as of September 30, 2014 amounted to ¥32,359 million, an increase by ¥2,735 million from March 31, 2014, due to an increase in unearned revenue arising from land rent invoiced for the year ending March 31, 2015 and proceeds from long-term loans payable.

(Net assets)

Net assets as of September 30, 2014 increased by ¥1,356 million compared to March 31, 2014 to ¥49,354 million mainly due to an increase in retained earnings from recording net income for the period and in valuation difference on available-for-sale securities.

As a result, equity ratio as of September 30, 2014 decreased by 1.4 points to 58.5 % compared to March 31, 2014.

(3) Qualitative Information on Consolidated Earnings Forecast

There is no change as to Consolidated Earnings Forecast for the Year Ending March 2015 which was announced in the Financial Results for the Year Ended March 31, 2014 [J-GAAP] dated May 14, 2014.
